

VIDEO INTERVIEWING SERVICE

At EasyWeb Agency, we are always looking for new and innovative ways to set ourselves apart from other agencies, whilst keeping EasyWeb's focus of helping customers to reduce their recruitment time and costs at the heart of what we do. We want to make your recruitment process as streamlined as possible and that's why we have introduced two-way video interviewing.

As recruiters, we know that sometimes a CV and cover letter just aren't enough for you to know if a candidate is right for an interview, let alone right for the job.

Video Interviewing makes it that much easier for you to make an informed decision sooner, potentially removing the need for first round phone or face-to-face interviews. From just a short video interview you can screen more effectively, not only ensuring that relevant questions are asked but also evaluating the level of engagement and culture fit between your company and the candidate. All before the interview stage!

WHY CHOOSE VIDEO INTERVIEWING?

Reduce average hire time from 45 days to 24 days through the utilisation of Video Interviewing

Save 30% of costs through the reduction of interviews conducted by your highest paid staff

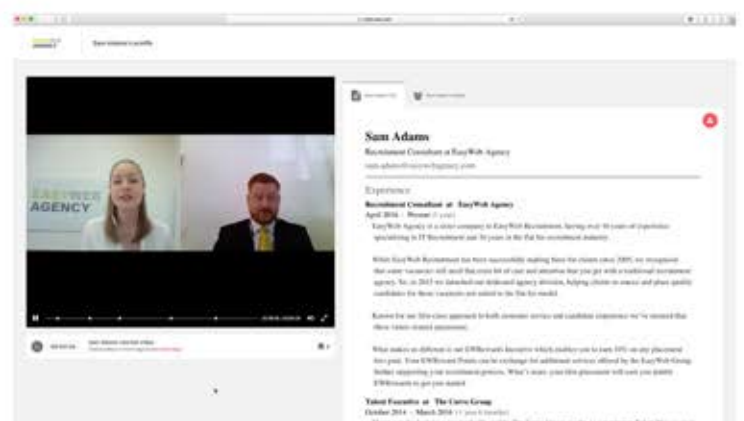

Reduce Candidate travel times and costs by 67%

80% of Employee turnover can be linked to faults in the hiring process - Eliminate these
